Waste and Materials Management. Redefined.

DESIGNED SPECIFICALLY FOR THE HEALTHCARE INDUSTRY

Toter's locking medical waste carts provide a safe, secure method for collecting, moving, and disposing of regulated medical waste. They feature smooth interior walls that are simple to clean and disinfect. They're available in multiple sizes, with or without caster wheels.

With the industry's best tilt-to-roll ratio, an ideal handle height, best-in-class ergonomics, and rugged wheels, Toter's two-wheel medical waste carts are super easy to maneuver – even when completely full.

Caster medical waste carts are ideal for maneuvering the heaviest of loads – the added caster wheels eliminate the need to tip the cart to roll it, helping to stabilize heavier loads.

MEDICAL WASTE CARTS

There's no other medical waste cart that's built to last quite like a Toter. They're manufactured with a patented stress-free Advanced Rotational Molding™ process for superior product durability and years and years of service life. Toter carts are extremely flexible and impact-resistant, and easily handle the day-to-day abuse of medical waste collection. With patented Rugged Rim® technology, added materials in critical-wear areas, and a reinforced bottom wear strip, Toter carts are extremely tough in the areas that take the most abuse, so they'll stand up to just about anything.

Secure self-latching lid

Optional pull bar connects multiple carts.

FEATURES

- Manufactured with patented Advanced Rotational Molding process for years and years of service.
- Self-latching lid keeps contents safe and secure.
- Secure gasket seal ensures a tightly sealed lid, reducing odors and spillage.
- Flexible and impact-resistant to handle the day-to-day abuse of medical waste collection.
- With the industry's best tilt-to-roll ratio, an ideal handle height, best-in-class ergonomics, and rugged wheels, Toter carts are super easy to tilt and roll – even when completely full.
- Available in 64- and 96-gallon sizes.
- Low, narrow profile is easy to maneuver and fits through most doors.
- Bottom wear strip provides outstanding abrasion protection.
- Can be stacked – even with caster and two-wheel carts stacked interchangeably.
- Backed by an impressive industry-leading warranty.

Patented Rugged Rim technology adds rigidity, and reinforced material in critical wear areas extends life of cart.

Factory-installed 360° rotating steel stop bar is attached in a molded-in, sealed journal.

Casters maximize maneuverability with heavy, cumbersome loads.

Large area for optional custom graphics.

Textured surface resists scuffs and scratches and hides unsightly dirt.

10-inch heavy-duty, easy-roll Quiet Cap wheels are fully inset to eliminate damage to walls and doors and reduce overall noise levels.

Caster carts include quiet cap wheels for minimized noise.

MEDICAL WASTE CARTS

2-WHEEL CARTS

Two-wheel medical carts are simple to maneuver.

CASTER CARTS

Two-wheel carts with casters are ideal for heavy loads.

PART NO.	CAPACITY (GALLONS)	DESCRIPTION	SIZE	LOAD RATING	WHEEL/CASTER DIAMETER
RMN64	64-Gallon	2-wheel Cart	32.00″l x 24.25″w x 41.75″h	150 lbs/68 kg	10″
RMC64	64-Gallon	Caster Cart	32.00″l x 24.25″w x 44.25″h	150 lbs/68 kg	10″/4″
RMN 96	96-Gallon	2-wheel Cart	36.00″l x 29.75″w x 43.25″h	225 lbs/102 kg	10″
RMC96	96-Gallon	Caster Cart	36.00″l x 29.75″w x 46″h	225 lbs/102 kg	10″/4″
