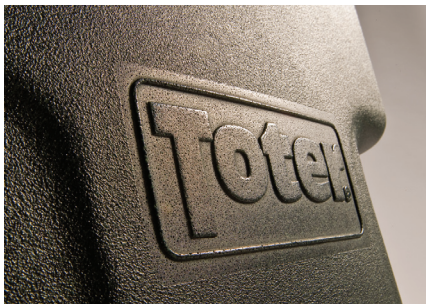
LITTER CONTAINERS

45 and 60 gallon sizes

Toter user friendly litter containers reduce container maintenance costs and enhance any setting

Features:

- Toter litter containers are the first step in an effective and sustainable collection, transportation and disposal system
- Containers are manufactured using Advanced Rotational Molding™ with patented Rugged Rim® design for maximum durability and reduced container maintenance costs
- Automate (A-Model) collection to eliminate potential injury and improve productivity
- Containers provide the highest value compared with other plastic, metal or concrete litter containers
- Large 60 and 45 gallon capacities
- Upscale granite finishes
- Bag holder straps hide unsightly can liners
- Hollow base holds up to 75 lbs. of sand for stability
- 60 gallon model has 4 easily accessible openings



Toter's textured granite surface provides an attractive, durable finish.

Cart is available these granite colors:

- Brownstone
- Sandstone
- Navy Granite
- Greenstone
- Graystone
- Blackstone
