Perforated Decking

PRODUCT SHEET

Perforated decking is a revolutionary new product that offers a seamless solution for storing carpeting, furniture, boxed items, and archive storage. Like our wire decking, Perforated decks are strong, safe and reliable and simply drop into place for easy installation. They provide a uniform flat storage surface that won't leave indentations on your product. Our Perforated Deck Stock Line will accommodate most standard step beams found in the industry today. Custom sizes also available with a 50 piece minimum purchase.

Part Number	Size (d x w)	Capacity
PD3646-3	36 x 46"	1700#
PD3646-4	36 x 46"	2000#
