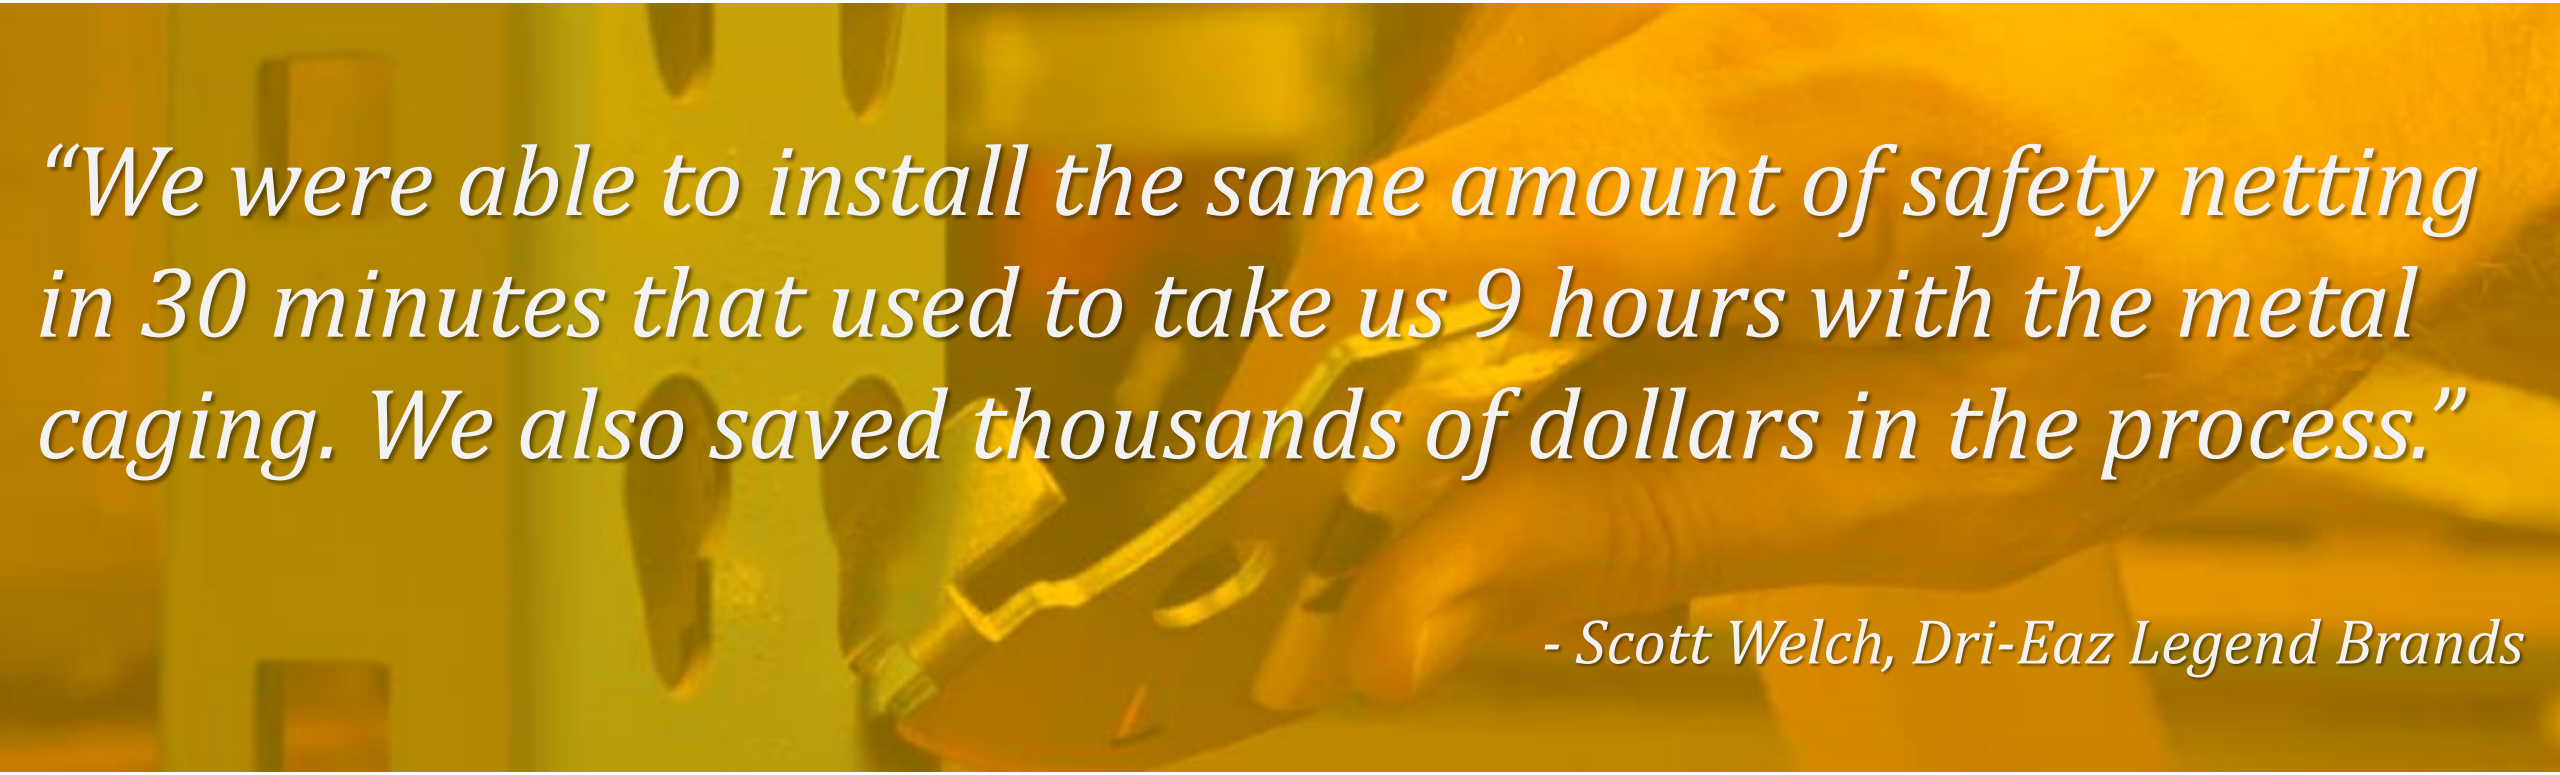
ADRIAN'S SAFETY SOLUTIONS

Customer Testimonial



"We were able to install the same amount of safety netting in 30 minutes that used to take us 9 hours with the metal caging. We also saved thousands of dollars in the process."

- Scott Welch, Dri-Eaz Legend Brands

ADRIAN'S
SAFETY SOLUTIONS

Rack Safety Strap

This strap increases the level of safety to your warehouse racking by keeping large, palletized or shrink-wrapped items from pushing through into the flue space or falling into a work area.

Standard sizes: 8, 9, 10, 12 and 13 feet bays. Custom sizes also available.

End of Aisle Safety Strap

Provide end of aisle carton fall protection on pallet racking with the End of Aisle Safety Strap. The strap works like traditional end of aisle netting without all the complicated installation. The straps have a specially angled hardware that hooks right into all standard uprights – no tools needed. Protects aisle ways and works areas while reducing product loss. Installs in seconds.

New Product – End of Aisle Safety Netting

Provide end of aisle carton fall protection on pallet racking with the End of Aisle Safety Netting. This product works just like traditional end of aisle netting without all the complicated installation. The specially angled hardware hooks right into all standard uprights – no tools needed. Protects aisle ways and works areas while reducing product loss.

ADRIAN'S SAFETY SOLUTIONS

New Product – Fixed Safety Cable

Keep stock from falling into the flue space with a fixed steel cable. The Fixed Safety Cable bolts into the back of the rack easily to keep items in place.
